**Subject:** Review of Gasco Revised Final Model Update Report  
**Attachments:** Comments on Gasco June 2014 Revised Model Report.docx

Hi, Dana:

EPA completed a review of the revised Gasco Final Hydraulic Source Control and Containment System Groundwater Model Update Report, dated June 2014. Attached are EPA's comments. As noted in the comment set, NW Natural was non-responsive to several comments previously submitted by EPA.

Let me know if you have any questions and I'll get back to you when I return.

Thank you.

S
